Journeys begin here...

DREAMS

GL2 presents a completely unique tool for elementary students through adults to help them chart a course of study and career development in order for them to have better options and opportunities than ever before.

From interactive maps to recommending scholarships, Journeys helps everyone achieve the dreams they were meant to pursue.

Based on algorithms and simple interactivity, Journeys Map revolutionizes the way everyone approaches their educational future.

SUCCESS

Journeys is the answer to a long asked question... "Where should my education take me?"
From College to Career Readiness, **Journeys** is taking education into the next level of preparedness leading to career success.

Journeys has been recognized by the US Council on Foreign Relations for "Training and the Workforce" as well as praise from former Secretary of Commerce, Penny Pritzker as "a tool that must be made available to more Americans."
